Volunteers Needed for Water Quality Monitoring on Ebenezer Creek –
Training Session Scheduled for October 1st

A workshop to train volunteers to monitor water quality in Ebenezer Creek is scheduled on Sunday, October 1st, from 1:45 to 5:00 p.m. The program begins with an overview at the New Ebenezer Retreat located at 2887 Ebenezer Road, Rincon. Field instruction and sampling will follow at Tommy Long Landing on Ebenezer Creek. The session is free and open to the public. Reservations are requested. For reservations and for more information, email friendsofebenezercreek@gmail.com

Participants will learn how to collect and test water samples from Ebenezer Creek. The data that are collected will create a baseline of information about the nature and trends of quality of the water in the creek. This information will serve to establish baselines on the water quality as well as an early warning system for pollution and/or unexpected changes in the waters of Ebenezer.

The establishment of a water quality monitoring program on Ebenezer Creek is a great first step in addressing the concerns about the quality of the river and natural resources on the creek. The
